About Me

Software developer with experience in mobile and web development, currently expanding my knowledge in **Artificial Intelligence and Big Data**. I am passionate about creating innovative solutions and writing clean, maintainable code. I am seeking opportunities to apply my development skills and contribute to challenging technology projects.

Experience

iOS Application Developer

Feb 2022 – Jan 2024

ALTEN SPAIN

- Application of **SOLID** principles, **Clean Architecture** and **Clean Code** in developing robust and maintainable applications
- Development for the Andalusian Regional Government using modern frameworks and best practices
- Implementation of scalable and maintainable architectures following industry standards

Junior iOS Application Developer

June 2021 – Feb 2022

ALTEN SPAIN

- Dependency management and build optimization for efficient development workflows
- Implementation of MVC and MVVM architectural patterns in production applications
- Development for media companies (KissFM, RockFM) and retail sector (DIA)
- Database management for efficient local and remote storage

iOS Internship Training

Mar 2021 – June 2021

ALTEN SPAIN

- First steps in creating interfaces and business logic for applications
- Practical training on software development with focus on best practices

Education

IES Rafael Alberti

Oct 2024 – June 2025

Specialization Training Cycle in **Artificial Intelligence and Big Data**

- Machine Learning, Reinforcement Learning, LLMs and Transformers
- Big Data with AWS, datasets from HuggingFace and Kaggle

CDP San Ignacio: Salesianos-Cádiz

Sept 2019 – June 2021

Advanced Training Cycle in **Multiplatform Application Development**

- Development with **Java, Python, Django, Spring Boot**, Laravel and Ionic
- Databases: MySQL, PostgreSQL, MongoDB and Firebase

I.E.S. Mar de Cádiz

Sept 2017 – June 2019

Intermediate Training Cycle in **Microcomputer Systems and Networks**

Skills

Languages: Swift, Python, Java, JavaScript, SQL

Frameworks & Tools: SwiftUI, Django, Spring Boot, Laravel, Ionic, Git, Firebase

Methodologies: SOLID, Clean Architecture, Clean Code, MVC, MVVM, Agile

Areas of Knowledge: Mobile Development, Web Development, Artificial Intelligence, Big Data, Databases

Languages

Spanish: Native

English: B2 Level (Upper-Intermediate)
